

Control module  
**PCOS004850**

■ **Application**

The PCOS004850 control module is designed for connection of the pCO series controllers (except for pCOB) to ventilation control systems in compliance with the Modbus RS485 protocol.

The PCOS004850 control module enables integration of the unit into a building management system.

■ **Compatibility**

The PCOS004850 control module is compatible with all the air handling units of VUTR and DVUT series with A17 and A18 controllers.

**Technical data**

Parameters	Values
Cable size [mm <sup>2</sup> ]	use a two-wire shielded twisted pair cable AWG20/22 with the minimum cross section from 0.2 up to max. 2.5
Operating conditions	from -10 up to + 60 °C, relative humidity 90 %
Storage conditions	from -10 up to + 70 °C, relative humidity 90 %
Dimensions [mm]	60x29x20 (60x29 circuit board, 20: width of all components)
